

Raiona Denise — Work With Me Landing Page (Claude Code build)

Hand this whole file to Claude Code. It contains the prompt, the asset plan, and the three source files. Claude Code has local file access, so it can compress your graphics, build the `assets/` folder, and run a live preview that displays everything correctly.

PROMPT TO GIVE CLAUDE CODE

Build a static landing page from the three files below (`index.html`, `styles.css`, `script.js`). Create the folder structure exactly as shown. Then take my source graphics from the folder I point you to, optimize them for web per the "Asset optimization" section, and save them into `/assets/` using the exact output filenames listed. Do not redesign anything or alter the graphics beyond resizing and compression. After building, start a local server so I can preview the finished site, then tell me how to deploy it.

FILE STRUCTURE

```
raiona-work-with-me/  
├─ index.html  
├─ styles.css  
├─ script.js  
└─ assets/  
    ├─ raiona-portrait.png  
    ├─ raiona-logo.png  
    ├─ graphic-design.png  
    ├─ brand-visibility-bundle.png  
    ├─ print-design-bundle.png  
    ├─ quick-build-landing-pages.png  
    ├─ strategy-session.png  
    └─ church-promo-pack.png
```

ASSET OPTIMIZATION (instructions for Claude Code)

Use whatever is available locally (sharp, ImageMagick, sips, or pngquant). Keep aspect ratios. Do not crop.

Output filename	Source graphic	Target
<code>raiona-portrait.png</code>	the transparent cutout of Raiona holding a laptop	keep transparency, max height ~1300px, PNG, under ~400KB
<code>raiona-logo.png</code>	"Raiona Denise Full Logo Orange" (orange full lockup)	keep transparency, PNG, under ~80KB
<code>graphic-design.png</code>	the GRAPHIC DESIGN card (corrected spelling)	1080x1350, under ~250KB
<code>brand-visibility-bundle.png</code>	the BRAND VISIBILITY BUNDLE card	1080x1350, under ~250KB
<code>print-design-bundle.png</code>	the PRINT DESIGN BUNDLE card	1080x1350, under ~250KB
<code>quick-build-landing-pages.png</code>	the QUICK BUILD LANDING PAGES card	1080x1350, under ~250KB
<code>strategy-session.png</code>	the BOOK YOUR STRATEGY SESSION card	1080x1350, under ~250KB
<code>church-promo-pack.png</code>	the 48-HOUR CHURCH PROMO PACK card	1080x1350, under ~250KB

The six service cards are already 1080x1350 (4:5), so they only need compression, not resizing. The portrait must stay a transparent PNG so it layers over the name type.

After optimizing, the page needs no further image work. If any source is missing, leave the matching `(assets/)` slot empty and the page will show a clean branded placeholder there.

WHERE YOUR SQUARE LINKS GO

Open `(script.js)` and paste each booking link between the quotes on the `(url:)` lines in the `(services)` array. Nothing else in that file needs editing.

DEPLOY

Once the assets are in place and the links are added, this is a plain static site. Drop the whole folder onto Netlify, GitHub Pages, or your cPanel host on raionadenise.com. No build step required.
